

## Instant Pot Spaghetti

1 pound ground beef

¼ cup onion – diced

1 teaspoon garlic – minced

24 oz jar spaghetti sauce (I use my own sauce)

2 cups water

8 oz spaghetti noodles (break into thirds)

2 tablespoons olive oil

½ teaspoon salt

### Directions:

1. Set pot to sauté. Add olive oil, onions, and garlic. Cook till soft.
2. Add ground beef and cook till done.
3. Add spaghetti sauce, water, and pasta. Push pasta down into the liquid. But do not stir.
4. Cover. Close steam valve. Set on manual for 10 mins.
5. Quick release the steam when done. Stir and serve.

Serves 4. I would not recommend doubling the recipe. The noodles do not cook well.

From our RV kitchen to yours. ENJOY!
